SECURE SERVICES

By bringing together technology and healthcare, we provide a host of services to stop the spread of COVID-19 and to ensure safety.

SAFETY PROTOCOLS

By establishing protocols, we set guidelines for all individuals to help reduce risk of transmission.

RISK MANAGEMENT

Our robust risk management services, constantly assess the safety of the premises as well as the efficiency of our existing protocols.

HEALTHCARE SERVICE

Tata MD SECURE's healthcare service provides consultation and emergency healthcare to all individuals.

TESTING

To ensure that everyone within the premises is healthy at all times, we conduct frequent testing, using Tata MD CHECK. Tata's CRISPR-based innovation, that's the gold standard of COVID-19 testing in the country.

CONTACT TRACING

In case an infection is detected, our contact tracing service helps locate other parties that might be affected, to help stop the spread further.

BIO-BUBBLE

With our bio-bubble service we create a safe and secure environment for individuals, isolated from the outside world to minimize the risk of infection.
